## **Christened *Moonbeam*, New Mission Boat Carries On Work Among ME Island Communities**

*Sunbeam V crew aboard Moonbeam being lowered to the water after christening.*

STONINGTON, ME -- With the *Sunbeam V* out of the water for a routine major refit until Christmas time 2019, the Mission had to find a way for the *Sunbeam* crew to travel among the islands without the *Sunbeam*. After researching, locating, and inspecting several boats, *Sunbeam* Engineer Storey King identified a 34-foot wooden Downeast Cruiser to serve as six-month transportation. Thursday, May 23, 2019 at 12:30 pm, the Sunbeam crew, Mission staff, and others gathered at Billings Boat Yard in Stonington, ME to christen the new Mission boat,

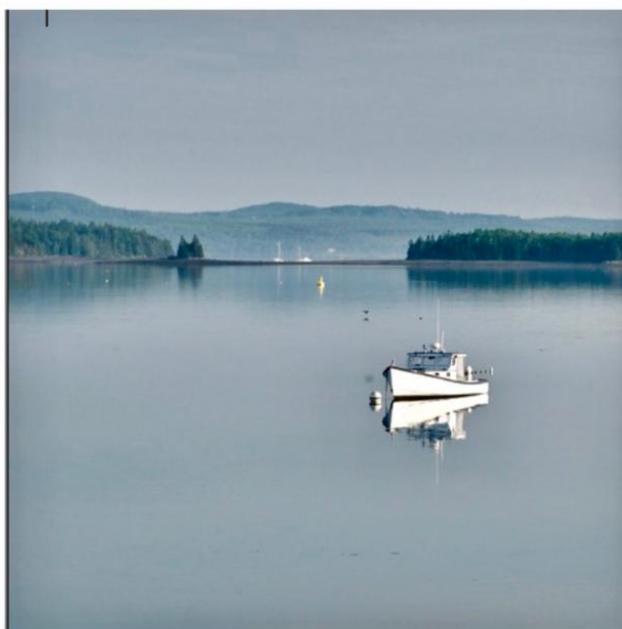

“It’s really important for the Seacoast Mission to maintain our presence on the islands. The *Moonbeam* is more than just a way of getting our crew to the islands, it’s our way of living our commitment to the health and well-being of these vital communities, as we have been doing for over 100 years,” said Mission President John Zavodny.
